

Curriculum Vitae

Mohamed Farouk Sayed Othman

Abdelkader

MD Ophthalmology

Personal Data

Surname: Abdelkader

Full Name: Mohamed Farouk Sayed Othman Abdelkader

Work Address: Ophthalmology Department, Faculty of Medicine, Minia University, Minia, Egypt

Phone: 00201280677577

E-mail: mohamed.osman@mu.edu.eg
mfarouk531@gmail.com

Date of birth: 20/7/1971

Nationality: Egyptian

Marital status: Married

License for practice:

Egyptian Medical Syndicate Registry no.: 118944 **Issue date:** 10/3/1996

Position: Associate professor of Ophthalmology, and vitreo-retinal surgeon,
Minia University, Minia, Egypt

Academic Qualifications:

- 2006: MD Ophthalmology Faculty of Medicine, Minia University, Minia, Egypt
- 1998: M.Sc. Ophthalmology, Faculty of Medicine, Minia University, Minia, Egypt
- 1994: M.B.B.Ch. Medicine and surgery, excellent with honor degree. Faculty of Medicine, Minia University, Minia, Egypt

Professional Records

- 1994-1995: Intern of General Medicine and Surgery, Minia University Hospital, Egypt
- 1995-1998: Resident of Ophthalmology, Minia University Hospital, Egypt
- 1999-2006: Assistant lecturer of Ophthalmology, Minia University, Egypt
- 2006 to 2016: Lecturer of Ophthalmology, Minia University, Egypt
- 2017 to date: Associate professor of Ophthalmology, Minia University, Egypt

Thesis Titles:

- M.D.

Combined lensectomy, vitrectomy, and scleral fixation IOL after closed ocular trauma.

- M.Sc.

Topical non-steroidal anti-inflammatory drugs versus topical dexamethasone 0.1% in controlling postoperative inflammation after extraction of senile cataract

Teaching Activities:

- 1999 to date: Demonstrator of clinical rounds in Ophthalmology for fourth year medical students, Minia University, Minia, Egypt
- 2006 to date: Lectures in Ophthalmology for fourth year medical students, Faculty of Medicine, Minia University, Minia, Egypt
- 2006 to date: Postgraduate lectures in Ophthalmology, Faculty of Medicine, Minia University, Minia, Egypt
- 2006 to date: Instruction courses in vitreoretinal surgery in Minia university hospital, and national retinal conferences.

main interests:

- vitreoretinal surgery
- cataract surgery

Languages:

- English
- Arabic

Publications:

Early bevacizumab management in retinal venous occlusions. Journal of the Egyptian Ophthalmological Society 2009; 102 (2): 95 – 106.

Role of avastin in management of central serous chorioretinopathy. Journal of the Egyptian Ophthalmological Society 2009; 102 (2): 85 – 94.

Clinical outcomes of preoperative and intraoperative injection of bevacizumab as an adjunct to vitrectomy in the treatment of proliferative diabetic retinopathy. Journal of the Egyptian Ophthalmological Society 2014; 107 (1): 5 – 9.

The outcome of preoperative subconjunctival bevacizumab injection in pterygium surgery. Journal of the Egyptian Ophthalmological Society 2014; 107 (2): 113 – 116.

Combined phacoemulsification and 23-G pars plana vitrectomy for coexisting cataract and rhegmatogenous retinal detachment. Journal of the Egyptian Ophthalmological Society 2014; 107 (2): 122 – 126.

Inferior limbal conjunctival autografting in primary pterygium. Journal of the Egyptian Ophthalmological Society 2015; 108 (2): 5 – 9.

The role of multidetector computed tomography and magnetic resonance recent imaging techniques in the evaluation of intraconal orbital lesions. The Egyptian Journal of radiology and Nuclear Medicine 2015; 46 (1): 53 – 61.

Internal limiting membrane closure of idiopathic macular hole. Journal of Clinical and Experimental Ophthalmology 2016;7:618. doi:10.4172/2155-9570.1000618.

Clinical profile and outcomes of management of orbital cellulitis in upper Egypt. Journal of Ophthalmic Inflammation and Infection (2017) 7:8 doi 10.1186/s12348-017-0126-3.

Evaluation of transconjunctival levator tucking for congenital ptosis. Journal of Egyptian Ophthalmological Society 2017; 110 (2): 41- 45.

Evaluation of corneal collagen cross linking with femtosecond laser assisted intrastromal corneal ring segments in keratoconus. Journal of Egyptian Ophthalmological Society 2017; 110 (2): 35 – 40.

Use of epimacular amniotic membrane graft in cases of recurrent retinal detachment due to failure of closure of myopic macular holes. Ophthalmic Surgery, Lasers and Imaging Retina 2020-02-01 | journal-article

DOI: [10.3928/23258160-20200129-06](https://doi.org/10.3928/23258160-20200129-06).

Comparison Between Silicone Oil and Gas in Tamponading Giant Retinal Breaks. Clinical Ophthalmology 2020-01 | journal-article

DOI: [10.2147/opth.s237783](https://doi.org/10.2147/opth.s237783)

Evaluation of primary internal limiting membrane peeling in cases with rhegmatogenous retinal detachment. International Journal of Retina and Vitreous 2020-12 | journal-article DOI: [10.1186/s40942-020-00213-4](https://doi.org/10.1186/s40942-020-00213-4).

Double Retinal Tamponade for Treatment of Rhegmatogenous Retinal Detachment with Proliferative Vitreoretinopathy and Inferior Breaks. Journal of Ophthalmology 2020-10-07 | journal-article DOI: [10.1155/2020/6938627](https://doi.org/10.1155/2020/6938627).

Triple Procedure for Dense Cataractous Neovascular Glaucoma Patients. Journal of Ophthalmology 2020-06-22 | journal-article
DOI: [10.1155/2020/1251203](https://doi.org/10.1155/2020/1251203).

Surgical Skills:

vitreoretinal surgery:

- pars plana vitrectomy
- phacovitrectomy
- Intra-vitreous injections
- Retinal treatment by argon laser
- Retinal pneumatic retinopexy
- Scleral buckle

Anterior segment surgery:

- Phacoemulsification and IOL implantation
- Extracapsular cataract extraction.
- Phakic IOL implantation (ICL, IPCL, Artisan)
- LASIK and LAISK Extra
- PRK and PRK Extra
- corneal cross linking

- Glaucoma surgery (trabeculectomy, combined phaco-trabeculectomy, cyclodiode photocoagulation)
- Pterygium removal with graft

Laser procedures:

- Glaucoma: YAG laser iridotomies
- Retina: argon laser treatment of retinal breaks, panretinal photocoagulation, focal macular edema.
- YAG laser posterior capsulotomy
- Femtosecond laser with LASIK.
